

# Hooray! Let's go on holiday - Autumn Term 1st Half Y2/3

In Science, we'll be:

- finding out about the difference between an object and what it is made of
- learning to name and identify everyday materials
- learning how to describe the properties of materials
- grouping and comparing materials based on their properties
- finding out about the seasons

In Design and Technology, we'll be:

- Designing purposeful, functional, appealing holiday souvenirs for ourselves and others.
- Using a variety of materials to make souvenirs. (Link to science)

In Computing, we'll be:  
learning about algorithms and creating and debugging simple computer programs.

In International, we'll be:

- finding out about pollution

In PSHE, we'll be:

- Writing a class charter.
- Finding about each other's talents and interests.
- Problem solving in every day scenarios.
- Think about ways to look after each other.
- Think about the choices we make.

In IPC, we'll be:

- finding out about where people go on holiday
- finding out about what people do on holiday
- finding out why people go on holiday
- finding out what people take on holiday
- finding out about holidaying in the UK
- finding out about holidays in the past
